TITLE	Directory of Services for the Retarded in the Greater Boston Area.
INSTITUTION	Boston Univ., Mass. New England Materials Instruction Center.
SPONS AGENCY	Bureau of Education for the Handicapped (DHEW/OE), Washington, D.C.
PUB DATE	[71]
NOTE	216p.
EDRS PRICE	EDRS Price MF-$0.65 HC-$9.87
DESCRIPTORS	Agencies, *Directories, *Exceptional Child Services, *Mentally Handicapped, Private Schools, Residential Schools
IDENTIFIERS	*Boston

ABSTRACT

Intended for parents and teachers, the directory lists schools and agencies for the retarded in the Boston area. An alphabetical listing of the schools and agencies is accompanied by a chart which makes it possible to spot check the services offered, including specific services for the multiply handicapped. A second section, alphabetically arranged, gives complete information on each organization: name and address, director or person to call for information, client information, services offered, and a summary. CONTENTS

INTRODUCTION

SECTION I - LISTING OF SERVICES

SECTION II - DESCRIPTION OF SERVICES

GLOSSARY

A DIRECTORY OF SCHOOLS AND AGENCIES

WITH SERVICES FOR RETARDED CHILDREN

IN THE BOSTON AREA

This directory is for parents and for teachers. It has been compiled in such a way as to make it as easy as possible to find the precise educational and recreational services to fit each individual child. An effort has been made to avoid educational jargon so that descriptions and summaries can be easily understood by parents as well as by professional personnel.

The first section gives an alphabetical listing of schools and agencies. A chart accompanying the listing makes it possible to spot check the services offered in each instance. In addition to the broad categories listed on the chart, the directory includes specific services for deaf-retarded, blind-retarded, physically handicapped-retarded and emotionally disturbed-retarded.

The second section, also alphabetically arranged, gives complete information on each school or agency:

Name and address
Director or Person to call for information
Client information
Services offered
Summary

The directory has been compiled by personnel at NEMIC (New England Materials for Instruction Center) under the direction of Mrs. Janice Webster, Boston School Department Special Education Teacher. Through a cooperative project between NEMIC and the Boston School Department, Mrs. Webster has participated in this and similar projects of value to the school system and to special education in New England.

For their interest in and encouragement of the project, gratitude is extended to Dr. Harold Ruvin, Director of NEMIC and to Dr. Vincent P. Conners, Director of Special Classes, City of Boston. Acknowledgement is also made to

the Handbook of Facilities for Emotionally Disturbed and Socially Maladjusted Children and Adolescents in Massachusetts and Adjacent Areas, the State Department publication Directory of Resources for the Retarded in Massachusetts, and the United Community Services Directory of Social, Health, Welfare and Rehabilitation Services in Massachusetts.

If any omission is noted we would appreciate being informed so that inclusion will be assured in another edition. Thank you.

Summary

The Children's Hospital Medical Center is a regional general hospital of 343 beds for young people up to the age of 21 years. There are no restrictions as to race, creed, color or financial status. The hospital has seven clinical services: Medicine, Neurology, Psychiatry, Surgery, Orthopedic Surgery, Neuro-Surgery, Radiology, Otalaryngology and Dentistry; special divisions for cardiological and neurological patients, a rheumatic research unit and a 12-bed clinical research center. Ambulatory services are provided through three general clinics and over forty special clinics. An Adolescent Clinic functions as a separate part of the Outpatient department. In addition, certain special rehabilitative facilities are provided: Orthopedic Rehabilitation Resources (diagnosis, treatment, and rehabilitation of various orthopedic handicaps); Massachusetts Infantile Paralysis Clinics of the Children's Hospital Medical Center (convalescent and chronic care of patients with poliomyelitis); Seizure Unit (diagnosis and treatment of epilepsy); Cerebral Palsy Unit (evaluation, management and rehabilitation of cerebral palsy); Hearing and Speech Clinic; Retardation Unit (services for the mentally retarded); Phenylketonuria Clinic.

Affiliated Institutions:

Children's Cancer Research Foundation, Parent's and Children's Services of the Children's Mission, Judge Baker Guidance Center.

Summary

Accepting children with various multiple handicaps, especially those handicapped by mental retardation, St. Coletta's provides only day care for retarded children of all faiths. In session from September through May, the School shows admission preference for children who have not had the opportunity for Catholic religious instruction. Instruction is provided to and above the fourth grade level for students capable of advanced work. Educationally retarded children of low normal intelligence who are unable to profit from regular classroom instruction are accepted. Also accepted are the emotionally disturbed who are functioning as retardates, as well as children who will be able to return to regular classes after a few years in a specialist environment. Ceramics, language development, and physical education are also offered. Summer camp program is also operated by the School at no charge.

D. Recreational facilities

Summary

The purpose of Counseling Services is primarily to offer a service of counseling, guidance, and testing to the woman or girl who is facing major decisions regarding her education and/or career, or who has a personal problem which doesn't need intensive psychiatric work. The largest segment of our clientele is the woman who wishes to return to work and needs advice and encouragement, or who has a marital or child-rearing problem; our next largest client segment is the center city, young working girl who is dissatisfied with her career or educational choice and wants guidance and new directions. Next is the girl who lives at the 'Y' or who comes here frequently for activities and needs help with personal problems.

DEFINITIONS OF TERMS

1. Case Finding -

   Locating retarded children who are not receiving help. Providing or recommending the assistance required.

2. Diagnosis/Evaluation -

   Appraisal and prescriptive judgment on mental retardation and associated disabilities. Determining the needs of the individual and developing specific plans.

3. Information/Referral -

   Recommendations of appropriate resources for management of individual situations.

4. Parental Counseling -

   A specific concern for helping parents of retarded children - instruction and guidance in care and training of the retarded.

5. Preventive Services -

   Prenatal care, early diagnosis, genetic counseling, intervention, education.

6. Homemaker Service -

   Help in keeping home and family together during crisis. (Housekeeping, mothering, cooking, etc.)

7. Protective Services -
